

# 3M™ PELTOR™ Extreme Performance H10 Series, Neck Band Earmuff H10B 290

## Specifications

<b>Attenuation</b>	<b>34 Decibel</b>
<b>Cord Type</b>	<b>None</b>
<b>Electrically Insulated</b>	<b>No</b>
<b>Hearing Protection Style</b>	<b>Behind the Head</b>
<b>Pack Quantity</b>	<b>1 pair/box, 10 boxes/case</b>
<b>Product Colour</b>	<b>Black/Red</b>
<b>Product Type</b>	<b>Earmuffs</b>
<b>Shape</b>	<b>Earmuffs</b>
<b>Size</b>	<b>One Size Fits All</b>
<b>Standards/Approvals</b>	<b>AS/NZS 1270:2002</b>

## Details

The H10 Series is a high performance hearing protector and has been developed for use in extremely noisy environments. The protection is based on a technology with a double casing minimising resonance in the casing giving optimum high-frequency attenuation. An acoustic connection between the inner and outer casings provides maximum low-frequency attenuation. The sealing rings are broad and filled with soft plastic foam for the best fit and low contact pressure.

Unique double-shell cup design provides high attenuation for eight-hour TWA noise exposures up to 105 dBA

- Represents the ultimate in earmuff technology by combining extreme noise protection with exceptional wearer comfort
- neckband format
- Patented liquid & foam filled cushions provide a quality noise seal with low pressure for all day wearer comfort
- Stainless steel headband wired with four point suspension helps distribute cushion pressure evenly & earcups pivot for consistent fit

*Suggested Applications*

- General Industry
