

MSA Cable Temporary Horizontal Lifeline

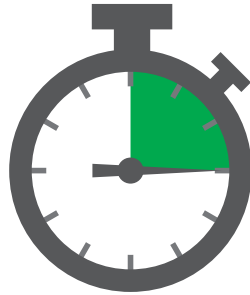

WE KNOW WHAT'S AT STAKE.

MSA Cable Temporary Horizontal Lifeline

Through intuitive and toolless installation features, MSA's Temporary Horizontal lifeline can help save time on the jobsite when it comes to setting up your lifelines.

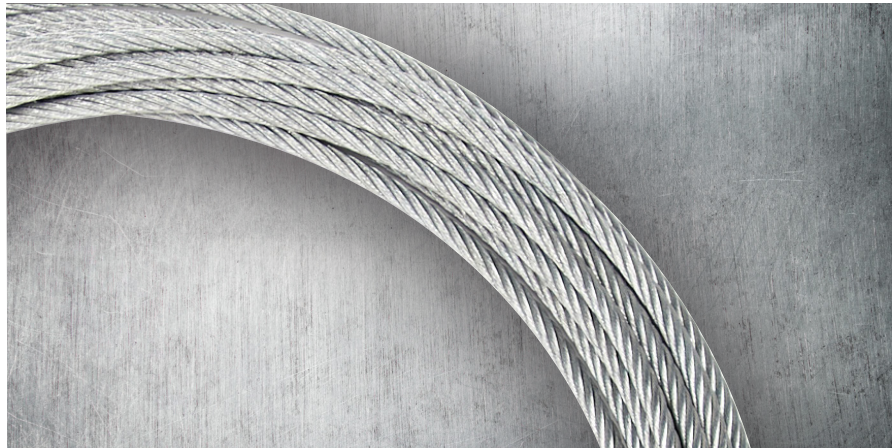

Get to Work Faster

No tools required! The MSA temporary horizontal lifeline uses an integrated locking and tensioning mechanism on the handle—eliminating the need for nuts, bolts, and wrenches. This allows for a 75% faster installation compared to traditional cable systems.

**Install 75% faster
than traditional
cable systems**

Additional Features

Manageable Cable

Lightweight and flexible galvanized cable makes installation easy.

Time Savings

Ease of use compared to traditional cable systems can help save hours on installation over time.

[Check out our time savings calculator here →](#)

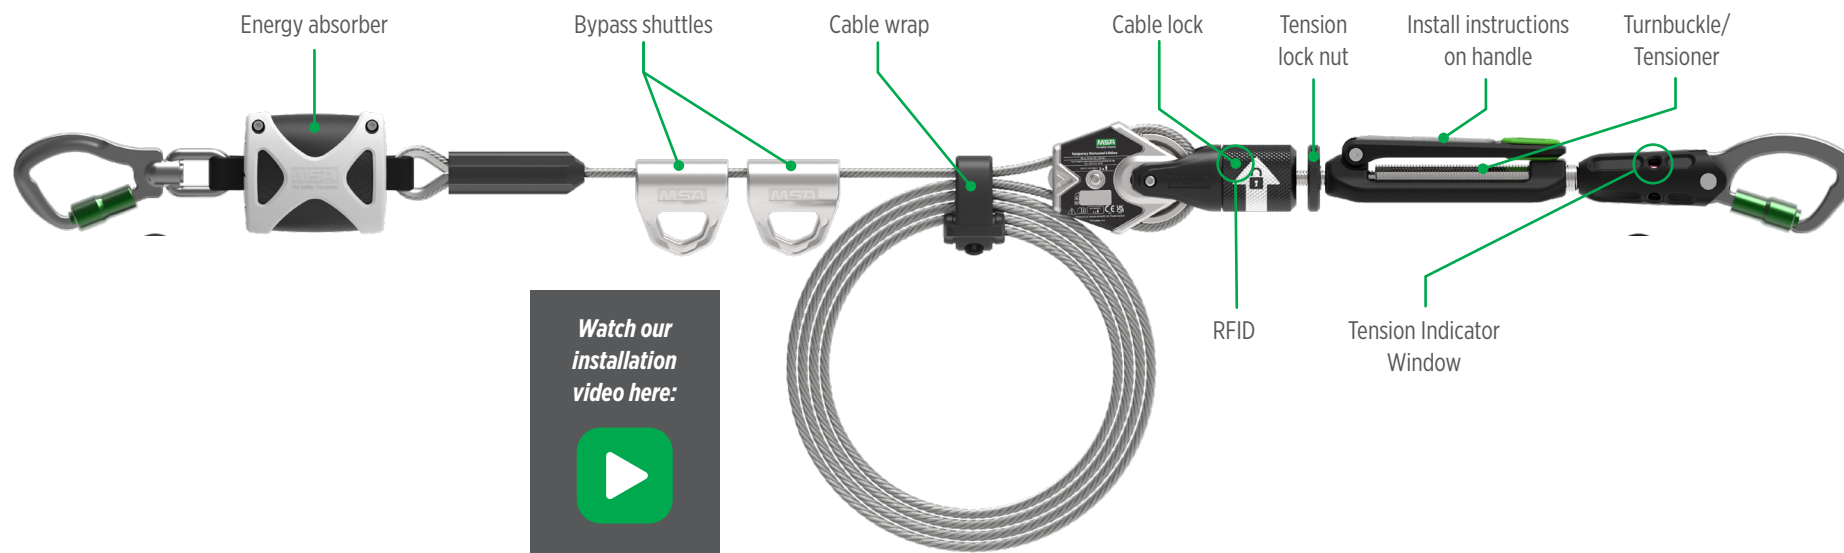

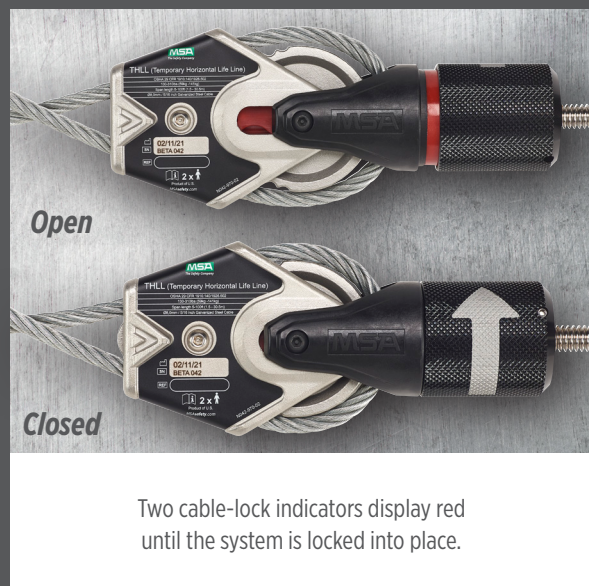

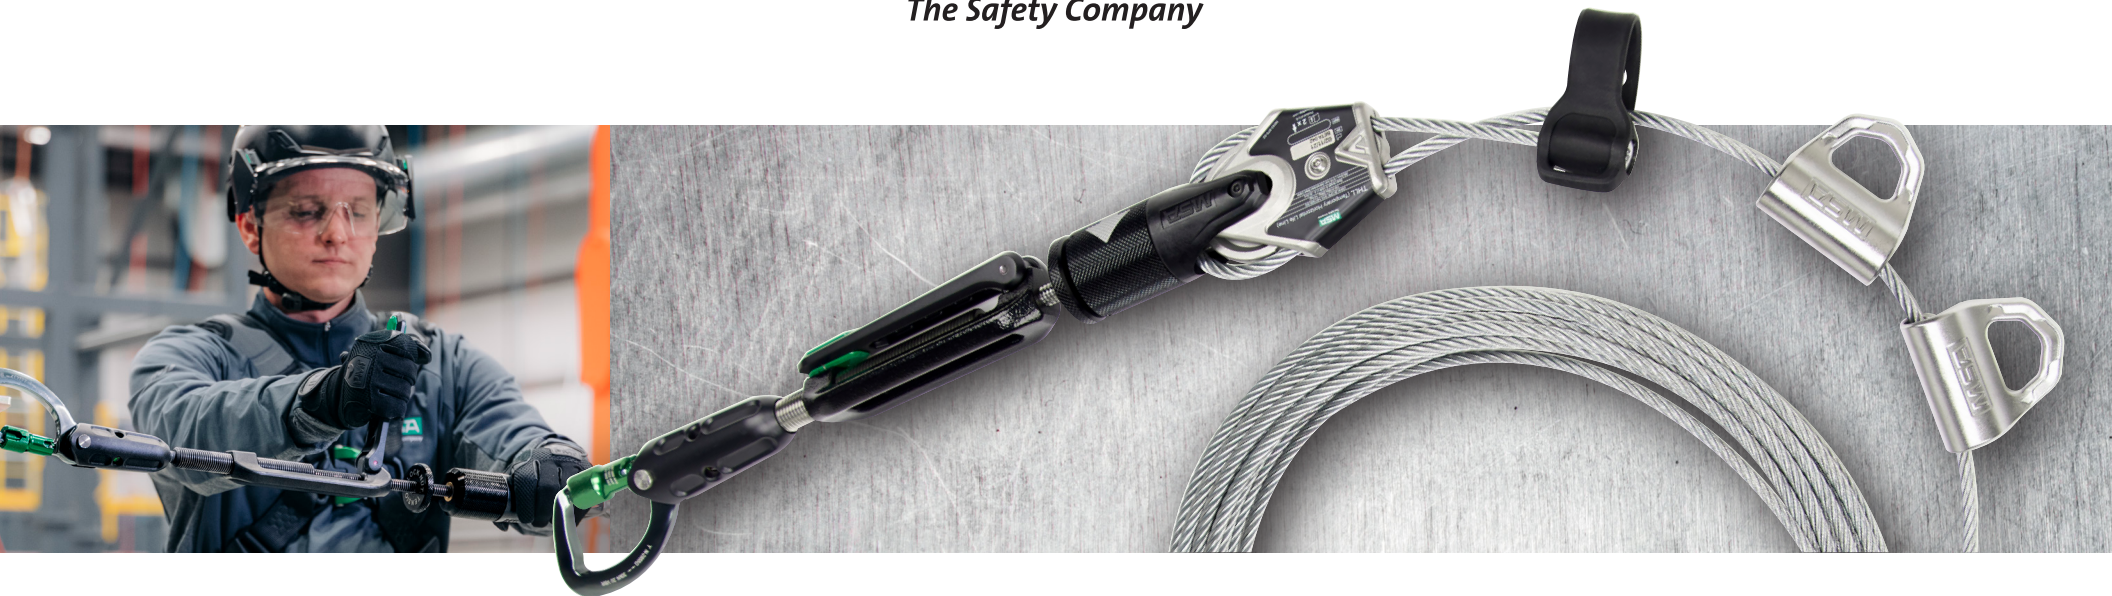

No Sweat Tensioning

Locking and tensioning mechanisms are on the same side—no need to travel back and forth during set up.

Confident Installation

Multiple visual indicators on the system let the user know the system is locked, tensioned, and ready for use:
