Overview

SXT® Oil absorbents are high performance, laminated, oil only sorbents designed to handle petroleum-based spills especially for high abrasion applications.

- White absorbents pick up petroleum-based fluids, paints and non-water soluble chemicals while repelling water - great for indoor & outdoor use
- Heavy weight - specifically designed for continuous leaks and larger spills so you use less material
- SXT® Oil absorbents are ideal for wiping down tools or component parts; they also remain intact even when saturated with oil
- Perforations provide cost control and reduce waste by allowing you to use only what you need
