Overview

Nylon Padlocks from Brady® have nonconductive fiberglass-reinforced nylon bodies and unique key cylinders that prevent electricity from traveling from the shackle to the key.

- Extremely compact and lightweight - compact nylon padlocks from Brady® are the smallest nylon locks on the market
- These lightweight padlocks comply with all OSHA requirements and offer superior temperature, chemical and corrosion resistance
- Non-conductive nylon padlocks are a safer alternative to metal locks for lockout applications
- Reserved, paracentric keyway provides optimal security and the special design prevents the key from being released until the padlock shackle is closed
