

# 3M™ PELTOR™ Earmuff H7P3E 290, Cap Attached Earmuffs

## Specifications

<b>Attenuation</b>	<b>30 Decibel</b>
<b>Brand</b>	<b>PELTOR™</b>
<b>Cord Type</b>	<b>None</b>
<b>Electrically Insulated</b>	<b>No</b>
<b>Hearing Protection Style</b>	<b>Hard Hat Attached</b>
<b>Material</b>	<b>ABS</b>
<b>Pack Quantity</b>	<b>1 pair/box, 10 boxes/case</b>
<b>Product Colour</b>	<b>Black/Green</b>
<b>Product Type</b>	<b>Earmuffs</b>
<b>Shape</b>	<b>Earmuffs</b>
<b>Size</b>	<b>One Size Fits Most</b>
<b>Standards/Approvals</b>	<b>AS/NZS 1270:2002</b>

## Details

The H7 Series has been developed for demanding noisy environments with increased low frequency attenuation. The sealing rings are filled with a unique combination of

liquid and foam. The result is an optimum seal with low contact pressure, which provides agreeable comfort even during long-term use. The H7 Series is a suitable choice for typical environments with substantial industrial noise or construction machinery, airports and agricultural work.

Carefully moulded sliders ensure the earmuffs are easy to adjust when on the head. Wide, soft foam ear cushions help workers stay comfortable, while the slim cups offer improved compatibility with other safety equipment.

- Versatile high quality earmuffs meet the protection needs of almost any working environment
- Patented liquid & foam filled cushions provide a quality noise seal with low pressure for all day wearer comfort
- Stainless steel headband wires with four point suspension helps distribute cushion pressure evenly & earcups pivot for consistent fit
- Stainless steel headband wired with four point suspension helps distribute cushion pressure evenly & earcups pivot for consistent fit
- SCL80 30dB (Class 5)

*Suggested Applications*

- General Industry
