

3M™ PELTOR™ Extreme Performance H10 Series, Headband Earmuff H10A 290

Specifications

Attenuation	33 Decibel
Cord Type	None
Electrically Insulated	No
Hearing Protection Style	Over the Head
Pack Quantity	1 pair/box, 10 boxes/case
Product Colour	Black/Red
Product Type	Earmuffs
Shape	Earmuffs
Size	One Size Fits All
Standards/Approvals	AS/NZS 1270:2002

Details

The H10 Series is a high performance hearing protector and has been developed for use in extremely noisy environments. The protection is based on a technology with a double casing minimising resonance in the casing giving optimum high-frequency attenuation. An acoustic connection between the inner and outer casings provides maximum low-frequency attenuation. The sealing rings are broad and filled with soft plastic foam for the best fit and low contact pressure.

Unique double-shell cup design provides high attenuation for eight-hour TWA noise exposures up to 105 dBA

- Represents the ultimate in earmuff technology by combining extreme noise protection with exceptional wearer comfort
- headband format
- Patented liquid & foam filled cushions provide a quality noise seal with low pressure for all day wearer comfort
- Stainless steel headband wired with four point suspension helps distribute cushion pressure evenly & earcups pivot for consistent fit

Suggested Applications

- General Industry
